

**European Commission  
Translation Service  
External Translation Unit**

**15 January 2002**

Dear Sirs,

This is to verify that Dr Ferenc Kovács of Bácskai and Kovács Inc. has worked for the Hungarian Academy of Sciences repeatedly over the past three years both as translator and as reader of English texts in view of publication in Hungarian. His work has been immaculate.

Dr Kovács' translation skills are not only versatile but they are based firmly in his earlier work in communication theory (the subject of his doctoral dissertation) and his venture in computer science aimed at the construction of a computer-based English-Hungarian dictionary for learners of English as a second language. He is not only familiar with but extremely comfortable in areas as disparate as law, political science, economics, history, sports, and filmmaking.

I warmly recommend his services for your Unit.

Miklós Hernádi Ph. D.  
Chief Counsellor  
Hungarian Academy of Sciences
